

Tracy L. Durham, PhD, is a neuropsychologist with specialization in military and aeromedical psychology and aviation safety. She completed an APA accredited clinical psychology internship at Tripler Army Medical Center in Honolulu, HI and subsequently received her PhD at Gallaudet University in Washington, DC. Dr. Durham finished her post-doctorate fellowship in clinical neuropsychology at Walter Reed Military Medical Center in Bethesda, MD, and holds a certificate in Human Factors from Embry- Riddle Aeronautical University. She is an active-duty Colonel in the U.S. Army and serves as the Deputy Director for the Department of Aviation Medicine stationed at Ft. Novosel, AL. She advises the US Army's Aeromedical Activity on policies related to psychological and neuropsychological assessment/treatment of aircrew members and serves on the as the US Army's Chief of Aeromedical Psychology. Dr. Durham deployed as an aeromedical psychologist and neuropsychologist in support of Operations Iraqi Freedom, Enduring Freedom and Freedom's Sentinel. She is the only aeromedical psychologist to hold the Master Aircrew Badge and was recently awarded the US Army Flight Surgeon Society's "Outstanding Aeromedical Achievement" award.
